

Relief Work In City Receives Criticism of Taxpayers' Group

As Payee Association Hears About
Number Of Home Concerning
Local Taxation—Object To Make
In Assurances.

There was a small attendance among the several hundred persons comprising the Kingston Taxpayers Association, when monthly sessions were resumed at the city hall Monday evening. The meeting was held in the Board of Health room, the city court chambers being in use by the hair dressers of the city for a meeting.

The first matter taken up after President Jay Terry had called the meeting to order was the passing of a motion made by Mrs. Church regarding the association's regret and sense of loss on the death of Thomas J. Comerford, one of its most active members and instructing the secretary to communicate to Mrs. Comerford the action taken at the meeting, with expression of condolence to her.

Mr. Terry brought up a number of matters and suggestions for possible action that had come to his attention since the last meeting of the association in June.

He first made reference to a recent speech by Tax Commissioner Graves, who held that cost of government could be reduced if budgets were slashed as they should be and government was properly reorganized and ramshackle out of date methods discarded. Other topics brought up were:

The increasing number of properties made exempt from taxation. Westchester county, it was stated, had shown an increase of 125 per cent in the amount of exempt property since 1924.

The proposition to spend \$20,000, 000 more on the Erie Canal, which was said to be carrying only about one-third of its capacity to date, despite the huge sums expended on it.

A recent letter by M. A. Herzog regarding appropriation of \$20,000 for relief fund and the suggestions regarding the Foxhall avenue sewer were referred to as matters that would bear thought and investigation.

Police Penalties
Mr. Terry also referred, briefly to the proposition to change the requirements for police pensions and at the same time took occasion to call attention to the charter provisions for the erection of such a fund, mentioning the various methods of possible income as given in the charter.

He also brought up the question as to whether or not the present police force was legal in view of the charter provision of one patrolman for each thousand of population. He understood that there were 32 members of the force although with a city population of 18,000 the number according to the charter should not exceed 28. Later Edward P. Ward suggested that possibly allowance should be made for members of the force not on patrol work, such as the chief, sergeants and clerk, in which case a larger number than Mr. Terry named would be permissible.

The relief work situation again came in for criticism. Mr. Terry said he thought much of the work unnecessary and particularly questioned the propriety of the city doing work on private property and mentioned the laying of culverts at the rear of the Island Dock as a case in point. He brought up the question of property owners being unable to secure employment and as a result being unable to pay their taxes. He said he thought the city ought to provide such people with at least sufficient work to enable them to pay their taxes. It might be that scrip could be issued by the city for such work, the same to be receivable for tax payment.

There was criticism of the relief and welfare work by several of the members present, with some sentiment in favor of cutting out the present relief work and going back to the old system of having the city welfare board take care of those who actually needed help.

Andrew Ferguson criticized the recent sale in assessment throughout the city, particularly as regards private homes, which he said had been the worst suffered. He claimed that in cases it would be hard to sell properties for what they were assessed. Mr. Ferguson said that there had been a lot of talk about cutting the tax rate, but what had really happened was that the assessed valuation had been raised. The speaker also criticized the Board of Public Works for not taking action on resolutions that had been sent to them and held that "there is not a decent street in the city of Kingston today." He thought that the Board ought to be forced to repair streets and that the work should be given out by contract. Mr. Ferguson claimed that the care for all these troubles would be to put men in public office who would do what the people wanted them to do. He declared that the city was "up to its ears in debt," and said "we don't want any more bond issues, mismanagement and corruption in government."

Mrs. Church brought up the question of the advisability of building a junior high school to relieve the congestion. Mr. Terry said that the matter had come up when he was a member of the board of education and at that time it seemed to be the opinion that if the system was adopted it would necessitate two junior high schools. After some discussion a motion was adopted to name a committee to investigate the matter.

University Course At Local High School

Beginning Saturday, September 22, at 9:30 a. m., at the Kingston High School, New York University will offer a two point course, "Materials of Instruction for an Activity Program," costing \$20 with an additional fee for registration or laboratory such as is required at the university. This course may be applied as an elective toward a B. A., B. S., M. A. or Ph.D. degree or as a specialization course toward a B. A. or B. S. degree at the university. Normal School or transfer credit to other universities may be arranged.

This course, meeting for a total period of 30 hours during the semester will stress in a detailed manner those materials of value to the teacher interested in an activity program, emphasizing sources, construction and use. Among the materials to be considered are charts; graphs; diagrams; models of salt and flour, salt and ash, paper pulp, soap, wood, glass, clay, paper, stick, and block printing; posters; cut paper work; pictures; maps; puppets, marionettes; dramatization; and puppets made of clay.

This course will consist of actually "doing" and "making." John J. Jenkins, director of visual instruction at the Bronxville (N. Y.) Public School and chairman of the state wide visual aids study now being made by the Association of Elementary Principals of New York State, will give the course. Mr. Jenkins has also given courses at the New Paltz Normal School during the past two summer sessions.

B. C. Van Ingen, superintendent of Public Schools and the Elementary Principals of the city who are responsible for bringing this first university course to Kingston have rendered valuable assistance to the visual aids committee of the association of elementary principals since the inauguration of the study. Principal Frank Meagher of School No. 5 is a leading member of the committee.

**Work Relief Laborer
Reported Missing**
The police department this morning received a request to search for Patrick Bohan, 25, of 196 First avenue, who is employed as a laborer on the emergency work relief. It was stated that Bohan was last seen about 1 o'clock Sunday evening. He was dressed in a blue suit.

**Maine Goes Better
Than 2 to 1 For Repeal**

Portland, Me., Sept. 12 (AP)—Maine, which blazed the trail to prohibition more than three-quarters of a century ago, had back-tracked far enough today to join the 25 other states which have voted to repeal the 18th amendment.

By a majority of more than two-to-one, exceeding the estimates even of repealist leaders, the Pine Tree State elected approvingly an entire constitutional convention of 80 delegates pledged to ratify the 21st amendment repealing federal prohibition. The convention will meet December 6.

Repealists led easily in all the 16 counties, even doubtful York, where an "independent" group of five wet candidates sought to capture part of the seven delegate seats allotted to that county, thereby dividing the repeal vote to some extent.

With 79 scattering precincts, most of them small, out of the state's 632 unreported, the statewide vote stood: For repeal, 113,827; against, 52,077.

The cities did the expected in returning liberal majorities for repeal. A surprising feature of the vote, however, was the wet strength developed in the smaller communities, a considerable majority of which voted to reject federal prohibition.

**3 More States Vote
Today on Repeal**

(By The Associated Press)
Maine, where prohibition was enacted away back before the Civil War, has voted to strike the 18th Amendment from the national constitution.

Repealists expressed confidence of similar results today in Maryland, Colorado and Minnesota, where elections on the repeal proposal were being held. Prohibitionists, disputing the ground, kept on fighting.

Twenty states have now taken all the steps to ratify repeal. Arizona, the latest of them, filed its formal notification of ratification with the secretary of state at Washington yesterday.

At least 25 states will have voted on the repeal proposal by November 7. The next states to vote after today are Idaho and New Mexico. Both have called elections for next Tuesday.

The 24 states which have voted to ratify repeal are: Michigan, Wisconsin, Rhode Island, Wyoming, New Jersey, New York, Delaware, Nevada, Illinois, Indiana, Massachusetts, Connecticut, New Hampshire, Iowa, West Virginia, California, Alabama, Arkansas, Tennessee, Oregon, Arizona, Missouri, Texas, Washington, Vermont and Maine.

No Civil Cases Ready For County Court So It Adjourns To Friday

When Court Convened Friday Civil Cases Must Be Ready For Trial or Court Will Proceed to Criminal Matters—Inquest Taken.

Unless an active day calendar is made up Friday morning at 10 o'clock when county court reconvenes the September term, so far as civil trials are concerned, will end. That announcement was made by County Judge Traver Monday afternoon after he had attempted without success to make up a day calendar. A number of cases were marked "trial" on the general call but when an attempt was made to make up a day calendar the attorneys asked that their cases be "passed for the day." Only one case was set down for trial and when it became evident that this would be the only case ready that case was withdrawn in order that the court would not have to bring back the jurors for that case which it was not sure could be ready today.

The term was adjourned until Friday morning at 10 o'clock when Judge Traver will attempt to make up a day calendar for Monday afternoon. The clerk, James Simpson, was instructed to notify all attorneys with cases marked trial to be present at that time and if it is impossible to make up a day calendar at that time the court will adjourn pending the report of the grand jury. All jurors were excused until Monday afternoon at 2 o'clock.

An inquest was taken in an action on contract brought by Christopher H. Boese against Tracy Bundy and another doing business under the name of Bundy & Haines. Plaintiff seeks to recover a balance due under a contract. Frank W. Brooks appeared for plaintiff. Plaintiff claims an agreement with defendants to purchase gravel at 10 cents per cubic yard. Evidence was offered to show that 3196 1/2 cubic yards had been taken by defendants. The sum of \$49.05 has been paid on account and there is an alleged balance of \$27.97 with interest still due. The plaintiff seeks to recover \$32.10. Judgment in that amount was entered.

Of the 36 trial jurors summoned but six were excused by the court after excuses had been presented by a dozen or more of the jurors. Twenty-three of the grand jurors were present, Egbert Hasbrouck of Shandaken, being reported ill. Four of the grand jurors present were excused by the court. Those excused were: Philip Lydon and Edward C. Quinlan, of Marlborough; Herbert Beckins of Enys and Louis Shaw of Ulster.

Frank Snyder of Hurley was named foreman and Jesse Boyce of Wawarsing was named acting foreman and after Judge Traver had instructed the grand jurors as to their duties as required by law that body retired and took up the matter of organizing.

John Ten Eyck of New Paltz, held under a peace warrant, was discharged when the complaining witness withdrew the complaint.

Raymond Shay, who at the June term paid a sum of money and agreed to pay the balance of \$100 due under the workmen's compensation law at the opening of the September term, failed to appear and make the payment as agreed. Lloyd R. LeFever who appeared for Shay asked that the matter be postponed until next Monday afternoon and District Attorney Cleon B. Murray agreed to hold the matter open until that time. If the defendant fails to appear at that time a bench warrant will be issued for his arrest.

Bernard McDonald, who last June agreed to pay \$4 a week toward the support of his wife, appeared in court. The probation officer to whom payments were to be made had reported that but four payments had been made since June District Attorney Murray asked the court to instruct McDonald to make payments go to trial. Mr. Murray said he was ready to go to trial Monday afternoon unless payment was made by that time. Even though the grand jury was in session at this time he said he would proceed with the trial at that time unless by that time the payments due were made. "I was the old story he said, the defendant could not pay."

McDonald said he would pay if he could but he had worked for a month on a boat and could not get his pay. At the present time he said he was waiting for a check and told of many other men who boat on the large canal and river who were unpaid. He promised to pay when he gets his money. He said he had \$150 due him for a year for taking a boat from South Rondout to some place.

District Attorney Murray stated to the court that a man who could operate a car and buy gasoline must have some means. McDonald replied that the car was not his and that his brother-in-law bought the gas. To this Mr. Murray replied that if he could get money from the same source to pay his wife what was due under the court order.

Judge Traver instructed McDonald that he would have to pay by Monday. An order was entered adjourning the matter until Monday afternoon at 2 o'clock and McDonald was instructed to pay by Monday to Assistant Probation Officer Abram Molynaux the sum due.

Court then recessed until Friday at 10 o'clock without a jury and the jurors were excused until Monday afternoon at 2 o'clock.

5 Killed When Plane Crashes
Lynchburg, Va., Sept. 12 (AP)—Eight persons were killed today when a passenger plane crashed on the grounds of an insane asylum.

Loses Control of Car When Stung By Bee, Smiths Are Injured

Mr. Tremper Couple in Hospital—Car Crashed Into Pole After Bee Had Stung Driver—Accident Near Maiden Estate.

Mr. and Mrs. Elsworth Smith of Mt. Tremper are in the Benedictine Hospital suffering from injuries which they received Monday afternoon when Mr. Smith lost control of his Buick sedan after a bee had stung him. The car crashed into a pole near the Holden estate between Mt. Tremper and Phoenixia, shattering the glass and severely cutting both Mr. and Mrs. Smith and an employee who was riding with them. Both Mr. and Mrs. Smith, who were in the front seat of the car, were severely cut by flying glass and in addition Mrs. Smith received injuries to her back. Mr. Smith suffered an injury to his knee and possible fractured ribs.

Dr. Quinn of Phoenixia was called and gave first aid and later Mr. and Mrs. Smith were brought to the Benedictine Hospital in this city by the Brethaupt ambulance service. Dr. Eastman is the attending physician. The woman employee, who was riding in the rear of the car, suffered severe bruises when she was thrown forward when the car came in contact with the pole. She was taken to the Howland House at Mt. Tremper, operated by Mr. and Mrs. Smith.

Beauticians Adopt New Name For Group And Accept The NRA

Will Be Known As Ulster County Hairdressers' Association—Adopt NRA Code To Be Effective On September 18—Schedule Announced.

At the meeting of the beauticians in the city hall Monday evening, it was decided to change the name of the Ulster County Beauty Shop Owners Association to the Ulster County Hairdressers Association and to adopt the NRA code regulating the operation of shops in regards to hours and prices. The code is to go into effect on September 18.

According to the code, the hours of operation are from 9 a. m. to 6 p. m. on Mondays, Tuesdays, Wednesdays and Saturdays and from 9 a. m. to 5 p. m. on Thursdays and Fridays. The prices set by the code will be the minimum charges.

The hairdressers decided to meet on the first Monday of every month with the board of directors meeting a week in advance. A meeting place is to be secured by a committee composed of Mr. Klein, Miss Plummer, Mrs. Howard and Mr. Roberts. Those wishing to join the association from now on will be obliged to pay an initiation or entrance fee of \$10. Yearly dues are \$12.

The state charter recently issued to the local organization was exhibited to those attending last night's meeting by Mrs. Marguerite Logan, president of the Ulster County Hairdressers Association, who expressed her gratitude to officers and members of the organization for their cooperation so far and hoped for their support in the future.

The membership list is as follows: Artistic Beauty Shop, Broadway Beauty Shop, Cosy Corners, Charles Beauty Salon, Colonial Beauty Shop, Main Street Hair Dressers, Mrs. F. Erickson, Miss M. DuBois, Hicks and Roberts, Miss Hess, Mrs. Howard, Mrs. L. Klein, New York Hairdressing Parlor, Mrs. Kubieck, Governor Clinton Beauty Salon, Mrs. George D. Receipts for fiscal year to date (since July 1) \$427,439,527.33; expenditures \$680,358,324.49 (including \$228,835,359.45 emergency expenditures); excess of expenditures \$252,918,796.16.

Walker Praised For Firm Stand

One Independent Voter Tells Why He Will Support a Candidate Who is Fearless and Has Taxpayers' Interests at Heart.

Kingston, N. Y., Sept. 11, 1933.
Editor Daily Freeman:

As a lifelong resident, a taxpayer of Kingston, I read and studied with much interest the statement of Harry B. Walker, published in your issue of September 6, 1933, explaining his negative vote, as a member of the fire board, in relation to a proposed change in the city charter, striking the city policemen and firemen increased pensions, or retirement pay.

Prior to Mr. Walker being chosen by the Republican party as its candidate for mayor, I had only a speaking acquaintance with him, and knew of him only as a successful business man and a citizen of excellent standing in our community.

A study of the explanation given in his statement on casting his vote, however, demonstrates to my mind, that he possesses unusual qualifications to fit him for the office of mayor, among which appear to be:

1. Courage and willingness to stand up and be publicly counted for that which he believes to be right.
2. Backbone sufficient to say "no" to a considerable number of city employees, their family and friends, in the face of a pending election.
3. A practical business knowledge of city affairs, at least so far as he, up to this time, had had official connection.

4. An appreciation of the serious fact that our city is overburdened by taxes as emphasized by the unusually long and startling list of properties now being advertised for sale for unpaid taxes.
5. An evident determination to reduce instead of increasing taxation.
6. And withal his evident desire to help and assist the needy and those out of employment.

I, for one, want to congratulate Mr. Walker on his concise and fearless statement, so free from the usual campaign propaganda, and I venture to say that if all positions at our city hall were filled with people of Mr. Walker's calibre and courage we would experience a great improvement in our city affairs.

I intend to vote and work for his election.

Respectfully yours,
AN INDEPENDENT VOTER.

Two More Speeders Are Arrested Here

One Was Doing 38 Miles an Hour on Albany Avenue and the Other 44 Miles—Motorcycle Officer Harbmann Checking Speeding in City—Used Wrong Plates.

Residents of Albany avenue have complained to the police that auto drivers were using that street as a speedway and as a result there have been several arrests made since Sunday for speeding. On Monday afternoon Motorcycle Officer Henry P. Harbmann arrested Edward Harrington of Unadilla, who was hitting 44 miles an hour, and Dominick Treasoni of 37 Hanratty street, who was speeding 38 miles an hour.

Mr. Harrington forfeited \$10 cash bail when he failed to appear in police court this morning, and Judge Charles de la Vergne, who presided, fined Treasoni \$5.

Sam Perry, a negro of Maiden, was arrested Monday by Officer Leonard, who found his operating a car on Ferry street with license plates issued for another car. Perry also had no operator's or chauffeur's license. He was fined \$2 on each charge, and the police were instructed by the court to remove the license plates from the car and forward the plates to Albany. Perry told the court the license plates were the property of a lady friend, but she did not know he had taken them and placed them on his car.

Two Children Ran Into Automobiles

It was reported to the police Monday that a boy named Charles Scully of Harley, who was riding a bicycle, ran into the side of a truck driven by B. Volmer of this city. The boy was not injured, but his bicycle was slightly damaged.

A. L. Apple, Ridgewood, N. J., reported to the police that Monday a little girl named Lena Gallo, 6, of 6 Hanratty street, ran off the sidewalk and into his car on Hasbrouck avenue, near Murray street. The girl's nose was bruised.

Two U.S. Balloonists Will Return By Canoe

Sudbury, Ont., Sept. 12 (AP)—Injured and ill from a week of struggling through dense bushes but considering themselves "mighty lucky," two American entrants in the James Gordon Bennett Balloon Races were ready today to canoe back to civilization.

Ward T. Van Orman and Frank A. Trotter were found yesterday, their clothes in shreds, their shoe soles worn thin from walking, and their stamina undermined by a diet of beans and blueberries, by James Barrett, lineman for a hydro-electric company.

The pair had cut a pole and the linemen, seeking the cause of the interruption of service, found a note they had left and came upon the Americans in an outpost cabin 40 miles north of Sudbury and nine miles from Thor Lake.

After coming down last Tuesday the aeronauts, in the bush for the first time in their lives, had traveled only 16 miles, walking almost continuously in search of help and suffering many hardships.

The hydro-electric station at Thor Lake is sending two experienced canoe men to a point six miles from the cabin. Van Orman and Trotter plan to walk to the craft, be paddled three miles to Thor Lake, and be put aboard a freight train for Sudbury.

Benedictine Takes In 16 Students

Sixteen students were taken into the Benedictine Hospital School of Nursing Monday. They are as follows:

Sister Mary Charles of Elizabeth, N. J., Mary Ann Campochiaro, Glasco; Sibylla Marie Schirmer, Saugerties; Helen Matilda Lomskas, Saugerties; Gertrude Amelia Heitman, Margaret Mary Messenger, Rita Margaret Balfe, Margaret Mary Larkin, Margaret Mary Crough, Helen Marguerite Joyce, Othella Fayette O'Bryan, Florence Kathryn Knetsch and Anna Dolores Quinn, all of Kingston; Alberta Judith Quirk of Olive Bridge; Agnes Margaret Tausel of Worcester and Myrtle Pine of Bismarck.

Executed By Decapitation.
Torgas, Prussia, Germany, Sept. 12 (AP)—Christine Lies, 46, and her son, Walter, 21, were executed by decapitation today for the slaying of her husband.

Havana, Sept. 12 (AP)—Defiant army officers, barricaded and besieged in the sumptuous National Hotel, resisted the new government's demands today that they come to terms immediately.

They scoffed at an ultimatum from President Ramon Grau San Martin that they yield in 24 or 36 hours and make ready for a showdown on the case that former President Do Céspedes' administration be reinstated.

Backed by the powerful ABC and OCCR secret societies, the erstwhile commanders, estimated from 300 to 500 in number, were armed and prepared for any contingency—continued siege or, as some predicted, battle.

Soldiers who arose against them last Monday and toppled over the Do Céspedes regime—which was supplanted by a revolutionary junta and, on Sunday, by Grau San Martin—kept an airtight line about the building.

Captain Mario Torres Menier, former head of the aviation corps, was one who saw trouble and possible bloodshed ahead.

"This can't go on," he said. "We've got to do something, even if it means fight."

The president issued his ultimatum to Colonel Horacio Ferrer, Do Céspedes' secretary of the army and navy, during a conference at the presidential palace.

On his return to the hotel, Colonel Ferrer maintained the officers were determined to hold to their stand for the return of Do Céspedes and that "it is impossible for these officers to return to their posts now; they can not be expected to take orders from their former sergeants."

Ever since the enlisted men's coup d'état of last week the army officers have defied the executive commissioners and since Sunday the government of Dr. Grau San Martin.

"Mutinous soldiers," the officers declare, "must stop and let Do Céspedes return to power."

Excitement at the hotel ran high when all employees walked out, feeling badly hurt if they continued to serve the officers.

The officers met the contingency themselves by manning the telephone switchboard and elevators.

The food problem was not so easily solved. Wives and friends brought food, but the military guard outside soon put a stop to that. Officers said their food supply would last two days.

Their supplies of ammunition increased, mysteriously, during the night. Bath tubs were filled with water to offset any idea of cutting the water mains.

A number of Americans, including Ambassador Sumner Welles, were stopping at the hotel.

Meanwhile talk of another revolution was heard.

A high official of the OCCR said his organization and the ABC control the Havana police, numbering about 2,000, which belatedly joined the army movement against Do Céspedes.

Officers in the National Hotel claimed confidently they could count on at least 3,000 of the 10,000-odd soldiers who rebelled against them a week ago.

Believing Colonel Fulgencio Batista, promoted from a top sergeant after he led last Monday's revolt, can hold the army behind him, the administration prepared to go about its work.

QUIT BUSINESS RATHER THAN OPERATE UNDER THE NRA

Egin, Ill., Sept. 12 (AP)—Preferring he said to quit business altogether than to operate under the NRA, Benjamin A. Pearsall, head of a dairy products company, today was preparing to close his plant at the end of the month.

In announcing his decision yesterday Pearsall said the National Recovery Act was all "coercion and fear, bluff and boycott" and said he would go out of business until it "blows over."

His chief objections to the National Recovery Act program he said were centered in the Chicago milk shed code which establishes a price of 16 cents a quart.

"I am selling at 7 cents a quart, cash and carry. Yet the government makes me sell at 16 cents. As against that price for delivered milk at a month's credit to consumer."

Believes Some NRA Officials Too Zealous

Kingston, N. Y., Sept. 9, 1933.
Editor, Kingston Daily Freeman.
Kingston, N. Y.

As a reader of The Freeman for many years, I am bound to notice all articles printed and as others I am much interested in the NRA and the various articles published in regard to its working out. I presume written by some NRA apostles or one in charge of publicity. Many of the same are helpful, educational, and patriotic, but like all other reforms and new schemes put forth for the benefit of the people in likely to have its influence entirely destroyed by some over zealous adherent who concludes that he or she has a mission to save the world, and immediately starts in to accomplish it, being actuated entirely by the desire to lead us all out of trouble into a realm of glory, forgetting entirely the fact that in order to accomplish any good or improve conditions in any manner requires a great amount of patience, wonderful forbearance and more than all a sense of justice and common sense, most of which the ardent reformer has failed to acquire.

To be specific in Friday's issue of The Freeman appears an article regarding some merchant employing extra help in emergencies or for special sales and criticizing him for working such help over eight hours per day, two days per week and which by the way is a sensible and business like thing to do, without doubt these two days is the only way these extras have of earning a living and supporting their families and perhaps by working long hours for the two days referred to may earn eight or ten dollars per week, little enough to feed and clothe a family, and if they are forced through the misguided efforts of some impractical zealot with a mission to lose a part of this remuneration, who has suffered? I say only the innocent victims of the reformers with a mission.

The writer's firm employs several men and girls in their business and if necessary for the conduct of the same to add extras for emergencies would not hesitate to let them work as long as it was profitable for them to do so or as long as they choose whether it was eight hours per day or sixteen so long as they could only secure two or three days' work per week, depending on the common sense of the public for approval of his acts in so doing.

The NRA under sound conservative and sensible leaders, will accomplish its aim but if administered by over zealous officials along fixed lines or plans without regard to common sense, justice, or reason, will fail as sure as fate, as practically all reform movements have failed during history, entirely through the efforts of persons obsessed with one idea only and that to make a name for themselves or impress the public with their ability to change the old universe which hasn't changed much for the last few centuries.

OBSERVER

HOLLYWOOD SIGHTS & SOUNDS

By ROSSIN COONS
HOLLYWOOD—Now that the Academy of Motion Picture Arts and Sciences is considering possible recommendations to protect the extra under the industry's code, that inconspicuously important individual is getting attention from another angle.

As a rule movie extras have been looked upon not so much as a group in which to work but rather as one from which to rise.

Making The Grade

About the only extras who break into the news ordinarily are those who suddenly "make the grade" and are lifted from the ranks for featured work in the films.

Because many of today's stars fought up from extrados—Clara Bow, Adolphe Menjou, William Powell, George O'Brien, Janet Gaynor, Charles Farrell, Frances Dee are but a few—there has been no lack of interest in the profession, but always as a possible source of new stars.

Until an extra becomes a "name," through work or personality that attracts attention from director or executive, he or she belongs to an anonymous army numbering approximately 17,000, registered and on call for duty. This army is an important factor in picture making, although to the general public it is as shadowy and vague as the parts it plays—atmosphere, background, mere enhancers of the illusion of reality. Except that pictures usually demand definite types, even for atmosphere players, the extra in a sense is little more conspicuous than the furniture on the sets.

Supply And Demand

Extra work generally is assigned by the central casting bureau supported by the major studios, which call upon it for their daily needs. Individual studios also maintain casting offices where some talent is hired.

The rate of pay generally varies from \$1 for an eight-hour day, with overtime for ordinary atmosphere, to \$15 a day for some outstanding talent or experience. When a player draws more than \$15 he rates as a "bit-player."

The academy committee is giving representative extras opportunity to air whatever grievances they may have, excluding those often heard mutterings of "invidious" in doing out work—mutterings attributed by casting directors generally to the fact that even when available jobs are distributed evenly as far as casting needs permit, there are still thousands who don't get called.

Organ Recital Sunday At West Point Chapel

West Point, N. Y., Sept. 12.—The first organ recital of the academic year to be given in the Cadet Chapel at the U. S. Military Academy here, will be held on Sunday afternoon, September 17th, beginning promptly at 3:30 p. m., D.S.T.

The organist Frederick C. Mayer will have the assistance of Lucy Bigelow Rouse, thereminist. This will be the first hearing in the chapel of the new, mysterious, ether-wave, electrical instrument, the theremin, often referred to as the untouchable instrument, since it is played by movements of the hands which do not touch it. Assuredly it is one of the marvels of the century. The artist is one of the finest thereminists in the country, having appeared in recitals at Columbia University, Union College and Carnegie Hall. A few weeks ago she appeared with distinguished success at the Greek Theatre of the Sleepy Hollow Country Club, Scarborough, with symphony orchestra. The combination of this novel instrument with the famous West Point organ should produce a most interesting result.

Parking of cars in the vicinity of the chapel will be permitted for this event. The program will be over in plenty of time for dress parade by the corps of cadets at 5:30 p. m. The recital is free to the public and all lovers of music are invited to attend.

The program follows:
Organ—(a) Variations on the Chorale: "Aut, Christen-messch, auf!"—Blick
(b) Intermezzo, from "Cavalleria Rusticana"—Mascagni
(c) Intermezzo, from "Eternal City"—Mascagni

Theremin—(a) Russian Chorale—Arkhangel'sky
(b) Santissima—Corelli-Kreisler
(c) Waldeinsamkeit—Reger
(d) Nocturne—Mates

(Composed for the theremin)
Organ—(a) Country Gardens—Grainger
(b) Prayer—Lemmens
(c) March, from Sonatas—Pontifical—Lemmens

Wrought-Iron Decorations
Wrought-iron replicas of roses are fashioned in an English blacksmith shop. The art has been handed down from father to son for five generations. Products of the family's shop have become famous in many countries.

Coal, Silver, Copper
Colorado, Wyoming and Utah rank in that order as to coal production. Utah leads in silver, followed by Montana. Arizona is first in copper and Montana second.

CARRIES ALL-BRAN ON EVERY VOYAGE

Seaman Finds This Delicious
Cereal Relieves Constipation.

Here is an unsolicited letter from Mr. Darragh:

"I have been going to sea for the past fourteen years. Every trip, I underwent severe headaches, nervousness, and sleeplessness. Tried all sorts of remedies, and received only temporary relief.

"So hearing about Kellogg's All-Bran thought I would get a box, which I did. That was six months ago, haven't been without it at home, and when I go to sea a box of Kellogg's All-Bran is always with me."—George D. Darragh, 1914 52nd Avenue, Oakland, California.

Tests show All-Bran contains two things for common constipation: "Bulk" to exercise the intestines; vitamin B to help tone the intestinal tract. All-Bran also supplies iron for the blood.

The "bulk" in All-Bran is much like that of lettuce. Inside the body, it forms a soft mass, which gently clears the intestines of wastes.

How much pleasanter this is than taking pills and drugs—so often harmful. Two tablespoonsful of All-Bran daily will correct most types of constipation. If not relieved this way, see your doctor.

Serve as a cereal or use in cooking. Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

First Frost of the Season Reported

Fall weather prevailed in Kingston Monday night and early this morning. During the night the first frost of the season made its appearance here in a few exposed places. The weather was such that many householders started coal fires to warm the house and others began looking over their heavy underwear.

Northern Part Of State Reports Frost

Albany, N. Y., Sept. 12 (AP).—Freezing temperatures were reported in the Adirondack Mountains today while a light frost appeared in the Mohawk Valley. The cool weather brought to New York State from the Polar regions by a southerly wind will continue tomorrow. Clear skies are forecast.

Ice formed on streams in the mountains and along the St. Lawrence the thermometer hovered around freezing, 32 degrees. At Albany the lowest reading was 35. At Troy it was 41 but Grafton, northeast of Troy, in the mountains registered 28. Schenectady's 39 was the lowest for this day in 18 years. At Rochester mercury column was at 44, which equals low mark for all September 12's which was established in 1879.

Syracuse had a low of 43. Western New York reported slight frost but nowhere was there a report of frost damaging the fall fruit and farm crops.

SADDLE PARTY ON 100 MILE RIDE THROUGH THE CATSKILLS

West Shokan, Sept. 12.—The personnel of the saddle party which left High Point Springs Farm Saturday morning on a 100 mile ride through the western Catskills, consists of the following prominent members: Francis Smiley, Master Gerow Smiley and Miss Rachel Smiley of Lake Mohawk, Miss Emily Marceau of California, Miss Jane Pearson of High Falls, Mr. and Mrs. Albert E. Milliken, Miss Katherine Myer, Sergeant John Roosa and Ferd A. Gildersleeve, all of Kingston, Matthew Haabrouck and Betty Haabrouck of Stone Ridge, Frank Roosa, superintendent of High Point Springs Farm and daughter, Mrs. Elmer V. Pawker.

Charged With Being A Tramp.
David Williams of New Orleans is spending five days in the Ulster county jail, having been committed by Justice Walter Webber on a charge of being a state tramp.

Market for Fruits And Vegetables

New York, Sept. 12 (AP).—(State Department of Agriculture and Markets)—Big Boston lettuce market was dull and slightly weaker. Upstate crates of two dozen heads jobbed out mainly from \$1.15 to \$1.25. Mainline ranged from 75c to \$1.50.

Jobbing sales on half bushel baskets of best Fellenberg pines were generally around \$1.

Supplies of upstate cabbage were moderate. Bulk consignments of Danish sold on the basis of \$27-\$30 per ton and domestic \$20-\$22.

Fancy tomatoes strengthened, the fanciest shipments packed in large changed hands at \$1.25-\$1.50.

Fruits:

Apples: Hudson Valley District; bushel basket or tub; Alexander, N. Y. U. S. grade No. 1, 2 1/2 and upward, 75c-90c. Fall Pippin No. 1, 2 1/2-3 inch and upward, \$1-\$1.25. Some as high as \$1.50. Gravenstein No. 1, 2 1/2 inch 60c-75c. Northwest Greening No. 1, 2 1/2 inch and upward 65c-85c. Wealthy No. 1, 2 1/2 inch and upward, 75c-\$1. Wolf River No. 1, 2 1/2 inch and upward, 75c-\$1, some as low as 60c. Miscellaneous varieties: N. Y. U. S. grade No. 1, 2 1/2 inch and upward, 65c-\$1.25. Two-quart clamax basket, blue varieties, 60c-80c. Gift crate, eight baskets, various varieties, blue, 50c-\$1; reds and white, 75c-\$1.

CLINTONDALE GRANGE TO MEET NEXT MONDAY

Clintondale, Sept. 12.—The regular meeting of the Clintondale Grange was held Tuesday evening in the Grange Hall in charge of Master Francis Gaffney, Sr. After the business meeting a very enjoyable lecture hour was given in charge of the worthy lecturer, Mrs. Eliza Simpson, after which delicious refreshments were served by a committee consisting of Mrs. Sarah Terwilliger, Mr. and Mrs. W. E. Harcourt, Floy Harcourt, Eber G. Palmer, Jr., William Palmer, Eber Palmer, Jr., Miss Marion Palmer, Miss Helen Palmer.

The next regular meeting of the Grange will be held September 18 in the Grange Hall. At this time the committee in charge of refreshments will be Mr. and Mrs. Louis Covert, Mr. and Mrs. Edward Jenkins, Mrs. DeWitt Ostrander, Claude Jenkins, Mrs. Charles Williamson and Miss Ruth Williamson.

There was no meeting of the Juvenile Grange Tuesday evening. A motion has not as yet been appointed to fill the vacancy caused by the resignation of Mrs. Edith C. Wager.

LAW AND ORDER ARE RECOGNITION STANDARDS.

Washington, Sept. 12 (AP).—Maintenance of law and order by a government representative of the popular will today was the standard set for Cuban recognition by Secretary Cordell Hull.

His formal expression of policy was given the press late last night as the Roosevelt administration intently watched every island development and indicated no intention of withdrawing just now the fleet of warships hovering in Cuban waters.

ASHOKAN.

Ashokan, Sept. 12.—Mrs. Charlotte Cudney and daughter, Mildred, of Kingston visited Mrs. S. B. Winnie, while Kenneth Cudney, Ray Cross and Seymour Winnie camped at Woodland Valley.

Marvin Green called on his aunt, Mrs. E. R. Kinney, Sunday. Mr. and Mrs. Alonzo Haver drove to Maybrook Sunday and took Miss Eula Krum, their granddaughter, home. She had been serving as supervisor in a girl and boys camp at Mount Vision during the summer vacation.

Robert Winnie of New Haven, Conn., visited his nephew, S. B. Winnie.

Mr. and Mrs. E. M. Powell, and son, Harold, spent last week with Mr. and Mrs. E. R. Kinney and during their stay visited Woodland Valley, driving all the way to the camp, viewing the severe washout damage. They also made a trip to Kingston and on Saturday took a trip to the "Devil's Tomb Stone" and on to Hunter and Tannersville, and down the Palenville mountain to West Saugerties, Woodstock, and home. They left Sunday for their home in Raleigh, expecting to visit a brother, the Rev. and Mrs. Callert at Delmar, Del. They will spend two or three days fishing there. Mr. Powell holds an important position in the Raleigh, N. C. Post Office.

Robert Haver visited friends and relatives in Samosville Sunday.

Perry Davis of Atwood was a caller here Sunday.

Mr. and Mrs. DeForest Bishop of Stone Ridge and cousin, Otis Bishop, of New York city, called on their cousin, Mr. and Mrs. Charles Greene, and Marvin one evening recently.

Mr. and Mrs. Hopkins D. Hewitt of Halcottville shopped in Kingston Friday and called on Mr. and Mrs. E. R. Kinney on their way home.

Ladies' Aid Meeting.

The Ladies' Aid Society of Trinity M. E. Church will hold its September meeting at the home of Mrs. Elmer V. Pawker, Spring street, on Wednesday afternoon of this week at 2 o'clock. Final plans for the annual fall and turkey dinner to be held Wednesday, October 25, will be made. The president hopes every member will be present.

"Saturday at Golf" At the Twaalfskill

On Saturday, September 16, this week, the Hudson River Golf Association will hold its "Saturday at Golf" at the Twaalfskill Club in this city. With good weather, a large entry from all the association's clubs, a most successful tournament is expected as Twaalfskill is one of the most interesting courses in the Hudson river valley and is in excellent condition.

Twaalfskill is also one of the oldest clubs, having been a charter member when the association was founded over 30 years ago. It has a most beautiful and picturesque setting overlooking the river with fine views of the Catskill, Berkshires and Shawangunk mountain ranges.

All members, senior or junior, of the association clubs are eligible to play and with ever increasing interest in golf and the association's program, this tournament promises a large attendance of enthusiastic golfers from the Hudson river clubs.

Beside the Twaalfskill Club, the other member clubs of the Hudson River Golf Association are:

Dutchess Golf and Country Club of Poughkeepsie.
Powelton Club of Newburgh.
Orange County Country Club of Middletown.
Columbia County Country Club of Hudson.
Rockland County Club of Nyack.
Hollow Brook Country Club of Peekskill.
Hudson River Country Club of Yonkers.
Houvenkopf Country Club of Suffern.

ABANDONED CAR WAS LOANED TO TWO YOUNG MEN

The Hudson sedan which was picked up near Hurley Monday by deputies from the sheriff's office and taken to Markie's garage, came from the Keener & Krom garage in Ellenville. It had been loaned to two young men who were driving it to Kingston when the connecting rod went through the crankcase, putting the car out of commission. They removed the license plates and left the car where it was found later.

PHOENICIA.

Phoenicia, Sept. 12.—Mrs. R. Smith gave a picnic party at Willow in honor of her son, Donald's eleventh birthday anniversary. An ideal spot for outdoor games and sports was selected near Mrs. Smith's former home. Those present to enjoy the day were Mrs. T. J. McGrath and family, Mary Katherine, Thomas and Edwin, Mrs. Woolbeater and sons, Augustus and Lawrence, the Misses Winifred Louise and Dorothy Smith, Betty McGrath, John McGrath, Warren Simmons, Harold and Arnold Bell, Roy Van Etten, Donald and Arthur Smith, Mrs. R. Smith, chaperoned the party. Very nice refreshments were served.

The filling in has begun at the station. A quantity of dirt and stone has been scraped off the meadowland of T. J. McGrath and dumped into the large hole made by the flood. The mails and express have to be carried to and from the station to the cars on the bank.

Ronald Sickler badly damaged his car in an upset the other night on his return home trip.

The Tennis Club met Monday night at Simpson's store to get all business adjusted after the close of the tennis tournament.

Charles Donovan has been brought from the hospital to his home here. Mrs. T. J. McGrath and family and Mrs. W. Clancy were Kingston callers Monday.

George Schwarzwelder's residence looks very nice in its coat of white paint and green blinds. These colors make an artistic setting with the trees and shrubbery around the place and with the green foothills in the back. A. Warren did the painting.

Little Alice Yerry, who was threatened with appendicitis, has recovered.

Mr. and Mrs. Adrian Loomis were Margaretville callers Saturday evening.

A son was born recently to Mr. and Mrs. W. E. Kner.

The many friends of Mrs. Brockema are sorry to learn of her recent illness.

Henry Hoffman of the Elm Lunch, Mt. Tremper, was a Phoenicia caller Monday.

The village life has settled down to "after-the-summer-season" quiet. Labor Day carried away its guests.

The drift now is more toward ammunition than "fly-book" as the deer season is creeping in.

Mrs. J. Norton of Watkins Glen spent a few days with her parents, Mr. and Mrs. George Schwarzwelder. Trooper Norton attended the state convention and Mrs. Norton saw the imprisoned deer on the cliff.

Chicken Supper.

A chicken supper will be served in the chapel of the Rondout Presbyterian Church Wednesday night beginning at 5:30. The tables will be in charge of the Social Club and excellent service will be given. The art department of the Ladies' Aid Society has planned a tempting menu consisting of chicken and biscuit, mashed potatoes, tomato and lettuce salad, jellies, cole slaw, a variety of breads and the usual tea, coffee and cocoa with cake, peaches and cream for dessert. The public is invited.

Ryan Taken To New York City.

Kenneth Ryan, committed to the Ulster county jail Friday by Commissioner Connelly in default of bail of \$5,000, the charge being passing of counterfeit \$5 bills, was taken to New York city today by a federal marshal. Ryan was arrested in Hudson, where, according to the complaint, he passed several of the bills.

Meeting of Port Eden P.-T. A.

The regular meeting of the Port Eden-Tencher Association of Port Eden School No. 12 will be held on Friday afternoon at 2 p. m. It is stated that all members be present as this is the first meeting of the new year.

Colony and Beef Soup
(Using leftovers)

1/2 cup chopped
cooked meat
1/2 cup rice
1/2 cup milk
1/2 cup butter
1/2 cup sugar
1/2 cup salt
1/2 cup cold
water
1/2 cup vanilla
1/2 cup sugar
1/2 cup butter
1/2 cup salt
1/2 cup cold
water
1/2 cup vanilla

Mix ingredients. Cover and cook
slowly one hour. Remove meat
bones, serve.

If soup is too thick it can be
thinned by adding another cup of
water. This is an excellent way to
use up a left-over roast bone.

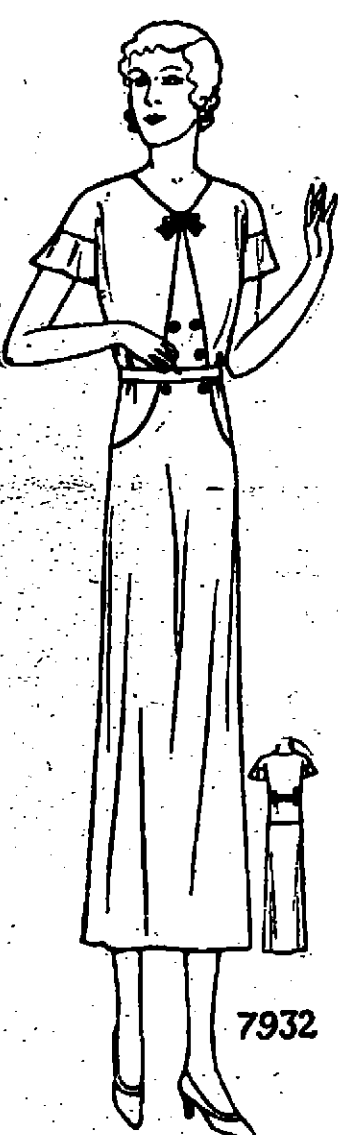

Vegetable Cakes
1/2 cup fat and sugar. Add rest of
ingredients and beat 2 minutes.
Pour into 2 layer cake pans lined
with waxed paper. Bake 20 minutes
in moderate oven. Cool and frost.

Frosting
1 cup maple
syrup
1 cup sugar
1/2 cup cream
1/2 cup butter
1/2 cup nuts

Mix maple syrup, sugar and
cream. Beat gently, stirring fre-
quently, until soft ball forms when
portion is tested in cold water. Re-
move from stove, let stand 15 min-
utes. Add vanilla, beat until creamy.
Frost cake. Sprinkle top with nuts.
Other nuts can be used.

Rings of fresh or canned pine
apple, browned and sprinkled with
chopped green peppers and pimiento,
make tasty garnishes to serve
with steak, chops or roasts.

this pleasing model, with pipings,
buttons and bow in red. Gingham
in the new checks or plaids, dimity,
or linen is also attractive. The hip-
length waist portions are finished
with inserted pockets at the curved
seams of the skirt portions. The
shoulders are lengthened to form
cap extensions to which the sleeve
sleeves are joined. A belt holds the
waist at the waistline.

Designed in 6 sizes: 34, 36, 38,
40, 42 and 44. Size 38 will require
3 1/2 yards of 39 inch material. The
bow at the neck requires 1/2 yard of
ribbon. If belt and sleeve flares are
made of 35 inch contrasting material
they will require 1/2 yard. The
width of the dress at the lower edge
is 1 1/2-2 yard.

The Winter Suit and Its Fur

A SUIT WITH FUR VEST

New York—Since everybody is
showing the world at large is very
well informed on what's what in
fashion. It knows that suits are
being promoted for autumn and un-
til such time as one just naturally
slips into a fur coat. Even then it
may be slipped on over a suit, al-
though not all suits pluck hit for
dresses.

A number of the smartest suits
are smart because of their sleeves
many of which are fur. Fur gilets
and fur scarfs, yokes and sleeves
are the newest arrangement of fur
for the suit. Collars are either
high, or very tight and tailored.
Fur Ascots and fur bows are every-
where, which of course implies that
it is the flat pelts that are being
used. It is for these arrangements
but there are long haired furs too,
foxes galore. We have already an-
nounced the reappearance of Alas-
kan seal into the style picture.

Furs massed around the shoulders
on some of the best suits, coats too,
giving that top heavy effect which
we have grown to consider good
looking. There are several ways in
which fur may be lavishly used at
the top of the silhouette. There is
the slim, wrappy coat in broadcloth
that introduces a fox bordered cape
collar the fur used vertically along
the lower edge of the elbow-deep
cape. The shawl collar with ends
that turn in and up and shawl types
that are in one with fur pieces
worked over the shoulder tops are
also displayed.

To date there is great emphasis
on the dark gray and green shades
but black is as always a safe bet.
There is a demand for silver fur
trimmings and also for seal astrakhan
and the various lamb, not forgetting
American broadtail.

The use of velvet for blouses
is one of the biggest items in blouse
news for suits of sports description.
Jersey is again strongly represented
with fancies, such as the tapestry
and embroidered constructions.

ORDER

FOR

KINGSTON, N. Y.

10 YEAR ROUND

...with a copy of the complaint in the office of the Clerk of the County of Ulster, at Kingston, New York.

That the action is brought to obtain a judgment affecting the title to or the possession, use, or enjoyment of real property within the County of Ulster, the subject of the action is to make partition according to the respective rights of the parties, and it appears that partition cannot be made without prejudice to the owners, and for a sale of said property and a portion of the proceeds, be properly defined being described as follows:

That that lot or parcel of land situate on the northwesterly side of Pearl Street in the City of Kingston, Ulster County, N. Y., bounded and described and described as follows, viz: BEGINNING at said side of Pearl Street aforesaid at the corner of lands of the party of the second part being distant northwesterly measuring along the line of said lot 121 feet from the lot of Charles H. Kingston, and thence thence said part North 44 degrees 48 minutes west in line with a cedar tree 158 feet 4 inches to a point at end of a cross fence, thence North 42 degrees 22 minutes west 20 feet to a stake in the ground, thence North 48 degrees East 160 1/2 feet to the side of Pearl Street aforesaid at a distance of 11 feet distant from the said side of Kingston, and thence North 33 degrees 11 minutes East along the said side of Pearl Street 21 feet to the said place of beginning, containing about 2500 square feet of land be the same more or less, and is above courses being as the needful minutes August 5, 1894.

Financial and Commercial

New York, Sept. 12 (AP)—Traders in the financial markets were careful but cautious today and the speculative order of yesterday apparently had cooled off overnight. Stocks moved quite briskly at the start in the wake of the previous sharp rally. Profit taking in the alcohol and other buoyant markets of Monday soon entered the list and the market soon dropped back to a featureless job. Grains, cotton and other commodities held to a rather narrow groove. The dollar was heavy in foreign exchange dealings, sterling 2-1/2 and European gold currencies recovering substantially.

The oil probably made the best showing of the more active shares. American oil up about 2 points, and Standard of New Jersey advanced fractionally to around a point. Small gains were shown by American Telephone, General Motors, International Harvester, DuPont, Nash, National Biscuit, Kellogg and Woolworth. Chrysler crossed 50 for another new year's high, but later recorded a minor

loss. Losers of a point or more included Johns-Manville, U. S. Smelt- ing, U. S. Industrial Alcohol and Columbia Carbon.

While hopes or fears of the inflationary needle continued as important factors in the movement of the general stock list, most market observers were watching closely the trends of business and industry and their reflections on the NRA.

Followers of rail equities were highly encouraged by the progress of freight shipments which have exceeded the expectations of the more optimistic. With aggregate freight shipments some 15,000 cars in excess of the 1932 high mark, estimates of gains over 1931 are already being made in some quarters.

It was pointed out, however, that in order to contest the 1931 level, there must be a sustained business rise this fall.

Improved sentiment in the oil industry has brought hopes of a return of prosperity to this sector. Leading petroleum companies, it is pointed out, can show substantial profits with crude around \$1 a barrel.

Varied Activities at Camp In Boiceville

Shokan, Sept. 12.—Camp No. 2 in Boiceville, headquarters of the 215th Co., C. C. C., presented an inspiring sight Monday morning, as viewed in the bright September sunlight from the headquarters tent on the second level of the grounds. Old Glory floated proudly from a tall flagpole at the edge of the terrace, and the red and white banner of the local company bled from a brass-tipped staff outside the office of the commanding officer. Below, on the first level, lay the main part of the camp, its four long rows of tents, each with side and end flaps raised, and the bunks, bedding and even the shoes of the woodmen outside on the grounds, receiving their sanitary sun bath as per the camp regulations. Men assigned to camp duty for the day were moving blithely about their appointed tasks: Argo, of the general supply store, was airing the stock and cleaning out the tent; the mess tent flooring was being washed; Clayton Christiansa of Krumville and assisting carpenters were engaged in constructing another screened cabinet for dishes under the kitchen shack canopy. There was in fact an air of peace and contentment in this sector along the Kaopus front, and the mingled fragrance of woody smoke from the campfires and the cooking "chow" served only to enhance the seductiveness of the scene.

The permanent kitchen staff, by the way, has undergone a change in personnel during the past week, the following men now being on daily duty as assistants to Chef Teddy Ray and Mess Sergeant Martin Kurnert: Frank Draugales, New York City; Louis Carpio, East Kingston; John Mallon, New Jersey; first cook; Frank Mitchell, chief cook, and Arthur Hawthorne, Cook Joseph Traiana of New York City has received his discharge, having secured employment in the recovering business world. As an idea of what the boys at Camp No. 2 are eating these days, the following bill of fare for Monday's supper is given: Fried fish, onion gravy, Lyonnais potatoes, creamed turnips, steam diced carrots, hot tea, bread and butter and rice pudding. This is a sample of the regular meals served up to the boys, not a special "feed," but just good plain food and plenty of it. Small wonder, then, that the woodmen look healthy and happy. Incidentally, the quality of the chow at the camp may have been a contributing factor in the recent decision of two members of the 215th—Morris Smith of West Hurley and Morris Sherman of Ellenville—to join up with Uncle Sam's regular army, the lads having received their discharge in order to enlist in the Coast Artillery, with which branch of the service they will see duty in Panama. Still others who have received discharges in order that they might take outside positions, include James Hill, until recently private secretary to Major George W. Easterday, the commanding officer, and Lester Alexander, who has employment near his home in the northwest part of the town of Hurley.

Recreational Activities

Recreational Director Charles Terry in response to his appeal through The Freeman columns for musical instruments for the assembly tent, was the recipient on the following day of several offers, three of which were accepted immediately and the equipment is already in place at the camp. On Friday morning Mrs. Roy Jacob of Wrentham street, Kingston, wife of the former commander of the Kingston Post, American Legion, wrote Mr. Terry that she had a piano which she would gladly donate to the camp; Miss C. Dempsey of Greenkill avenue offered to give a victrola and records, as did also Mrs. Martha Robinson of Fair street. No time was lost in sending for these things, and those who donated them are assured of the thanks and gratitude of the soldiers, foresters and woodmen stationed at the camp. A number of seats, constructed of planed fir lumber have been set up in the assembly tent and the electrical wiring has been installed. There is also a Sibley, or regulation army field stove, being one of 43 such heating units which are to be set up throughout the camp, the larger tents each having three of them. The stoves, shaped like a large megaphone and about the same size, stand in a shallow box of sand, with their upper and smaller end graduating into a four inch chimney pipe going straight up through the peak of the tent. The stoves will accommodate both short chunks of wood and coal. They do not take up much space and should provide adequate heating for fall weather, especially in the tents where a number of men with heavy woolen clothing are congregated.

Next Sunday evening many of the boys by special invitation will attend church services in Phoenixia where an interesting speaking and musical program is being arranged for their benefit. Dr. Gifford of Kingston will be the principal speaker at this meeting. The usual mid-week concert will take place at the camp on Wednesday evening, with the entertainers being supplied by Paul Zucca, well known Kingston musical maestro. The Waldorf Inn orchestra of Phoenixia, which during the summer have been most generous with their services at these concerts, have gone back to the city, thus necessitating some scouting around for other talent by Director Terry.

The baseball team was defeated by the Pine Hill team last Sunday afternoon, score 10-6. Today the boys were scheduled to play the West Shokan nine, and on Thursday the foresters at the camp will cross bats with the C. C. C. team on the home grounds. Football probably soon will replace baseball as the leading sport with members of the 215th Co., while indoor ball and boxing will come in for their share of popular support.

About The Folks.

Major George W. Easterday, the commanding officer, expected to leave camp today on inspection

trip to the seven construction corps camps in the 3rd district. The major will accompany four other commanding officers on the trip, which is taken for the purpose of seeing how the other fellow does it, and to pick up useful ideas generally. During the major's absence, the affairs of Camp No. 2 will be in charge of 1st Lieutenant Otto Wiesner, U. S. Air Corps, who is second in command at Boiceville. Major Easterday, who early in the summer was assigned here from the 62nd Coast Artillery at Ft. Totten, has a brilliant service record: he is the holder of two silver star citations, is a graduate of the War College, "21," a distinguished graduate of the C. & G. S., "27," graduate Coast Artillery School, advanced course, "26," and a graduate A. C. Technical School, "32." He received his B. S. degree at George Washington University in 1923. During the World War, Major Easterday commanded the First Field Artillery at the Marine and Chateau Thierry, the regiment known to veterans as "The Rock of the Marne." He was with the 7th Division in the Vesle River and Argonne movements and served with the 16th Field Artillery, 4th Division, in the Rhineland Occupation. The major's record at Camp No. 2 speaks for itself; it is doubtful if there is better conducted camp in the whole C. C. C., than the one in Boiceville.

The men of the 215th are now receiving their requisition of overseas caps, though some of the fellows have been sporting the siffy headgear for some time. Within a short time, or as soon as the weather justifies the change, winter underwear will be issued, together with modified army overcoats and an issue of third blankets. There is some talk around the quarters that the camp will be "put under wood," in preparation for a local siege with old King Winter, but nothing official along this line has been given out. As it is, the order to break up camp in December, following general re-education on October 1st, still stands, though of course the people of northern New York are inclined to hope that the powers-that-be will change the official mind, and make the local camp a permanent one.

Add Vital Statistics.

No marriages have been reported where a member of the camp has been a contracting party, though it was bruited about today that on Saturday a woodsman from Phoenixia will assume the marital shackles. However, the name of the party of the second part being as yet generally unknown amongst the rank and file, this item will be duly considered in next week's column.

Perhaps the first member of the 215th to become a proud parent, since his induction into the conservation corps service, is Hasbrouck Christiansa of near Krumville, C. C. C. clerk in the office of Superintendent Ralph Craner, who last Thursday became the proud daddy of Helen Craig Christiansa, born in New York City. "Brooks," of course lost no time in making a bee-line for the metropolis in order to see his newly augmented family. He returned Monday morning, wearing his customary sunny smile and ready for business, though pardonably "cheery" and inclined somewhat to tread lightly, as before her marriage, about a year ago, was Miss Magda Elizabeth Hansen of Greenport, L. I.

Socially, the army enlisted men stationed at Camp No. 2, endeavor to embellish the fair name of the service along this line. On September 10, First Sergeant John B. O'Hara and Corporal Martin Kurnert entertained at a small dance and Italian spaghetti dinner, the Misses Annie Tierney of Bayville, L. I., and Janie Rlenke of Little Neck, L. I. The young ladies from downstate are inclined to be complimented upon their visit, as the two handsome non-coms, tall and erect in their service uniforms, are cynosure of all feminine eyes in this part of the country. Sergeant O'Hara is the man who keeps things moving around the big camp; he must know what to do and how to get it done. Corporal Kurnert is the mess sergeant; he feeds the inner man and does it well, for without this essential, things were bound to go awry. So, the gallants obviously are people of importance in the Boiceville neck of the woods.

And what of the forestry work? Well, the boys, 125 of them, were out on the job in the Shandaken forests Monday. What! Still in Shandaken? Well, that is one mighty big township, and by far the larger part of it is woods. And are those hollows rough and wild, and those mountains steep and slippery? You're telling me, say the boys. Do they carry their lunches with them? Yes, Ma'am and Sir, in army gas mask macks, also a bark knife for dis-covering to view the gypsy egg masses. What about the crescento treatment for destroying the pests? Well, that stuff has even been used that it ruins clothing and even burns the skin, so it is left in the trucks at the rendezvous, where it can be sent for in case an egg cluster should be found. Are the boys happy and well taken care of? What a question! Be yourself, dear Reader.

THE JOINERS

News of Interest to Members of Fraternal Societies

There will be a special meeting of Koochuck lodge in Mechanics Hall, Henry street, Wednesday night at 8 o'clock. All members are asked to be present.

The Rip Van Winkle Triangle will resume its meetings Thursday evening in the rooms of Kingston Lodge, No. 10, F. & A. M., on Wall street. All daughters of Eastern Star members or daughters and sisters of Masons are eligible to join if they are between the ages of 13 and 19 years.

Card Party Postponed

The card party of Kingston Council No. 124, Sons and Daughters of Liberty, which was to have been held this evening at the home of Mrs. Leta Jones, 177 Down street, has been postponed on account of death in the family. The card party will be held at some later date.

Slashed Negro's Condition Better

At the Kingston Hospital this afternoon it was stated that the condition of Allan Ward, 49, a negro of 23 Sycamore street, was somewhat improved. Ward was badly slashed by a knife in the rooms of Peter Cooper at 71 East Strand on Sunday evening, and it was not expected that he would recover from his wounds. Thomas J. Williams, 45, the negro accused of slashing Ward, was held under \$5000 bail for a hearing next week on a charge of second degree assault.

CONSULT YOUR WIFE *for Sound Advice....*

MR. MAN, you may know more about the intricacies of the stock exchange, more of high finance, more of the whys and wherefores of politics, more of this and that—

BUT, when it comes to shopping, your wife has *probably got you beat six ways to the jack-pot.*

Now don't let your male egoism get the better of you and just say, "The bl—k she has."—think about it. After all, women have made it their business to be good, economical shoppers. They devoted thought and effort to the business "you haven't had time for."

Go to your wife and ask her how she handles this shopping proposition. She'll tell you, "*Well, the first thing, and it's the most important, too, is to read the ads in the Daily Freeman.*"

And then she'll be glad to demonstrate for your benefit exactly how reading the ads led to economies and advantages in the purchase of everything from that club steak you liked so well last night to the new dress you've just been admiring.

Then, too, she'll probably welcome the opportunity of proving to you that she can save you money and assure you of better quality by buying your shirts and socks and such for you after checking the ads. Why not let her try it? She is a real expert at this shopping business. Above all, don't forget to follow her advice when you're shopping for yourself and check the ads in this paper before you start out to do your buying.

The DAILY FREEMAN

Big Ten Expects Trouble from Team Of Northwestern

By PAUL MCKELSON
Associated Press Sports Writer
Evanston, Ill., Sept. 12 (AP).—Win-
lose or draw, Coach Dick Hanley
sits on top of the college football
world.

He's the idol of Northwestern and
if he doesn't deliver a football
championship or if his team have
a miserable season, the Wildcats
along Chicago's north shore are con-
vinced no one could have done
better. Since Dick has been at the
coaching helm even the famous
"drug store" coaches of yesterday
have joined the cheering section.

Back for his seventh season as
Northwestern's coach, the square
shouldered leader of the Wildcats is
in a great spot this fall. His team
is green, composed mostly of sopho-
mores; the students don't expect too
much, and the possibilities are that
the Northwestern team will be the
big stumbling block of the Big Ten
football championship race.

A lot of hustlers
"We've got a green team," Dick
grinned, "but it's going to get better
as the season rolls along. No, I
don't think we've got a chance for
the title as there are too many holes
to fill with sophomores, but they'll
hear from us right along all season.
Thirteen lettermen, including seven
of the 1932 regulars, will be missing.
Our principal problems will be in the
backfield where we must replace
"Pug" Rentner at right half and
George Potter at quarterback and at
the tackle, guard and center posi-
tions along the line. But we're not
a real bunch of hustlers, green but
crazy to play football."

A survey of the line indicates the
wildcats will have a heavier and
faster but far less experienced for-
ward wall than 1932, a disappoint-
ing season to Hanley. Bill Ritter
and Joe Chambers, a pair of 215
pounders, will be the tackle posi-
tions. Two important posts in Han-
ley's scheme of offense. Other regu-
lars along the front line will be Al
Kaval and Edgar Manke, end. All
other posts must be filled by new
men. Ollie Olson, one of the best
tacklers to boot the pigskin in Big
Ten warfare, will return to the full-
back post with Jackie Sullivan, a
no open field runner, at halfback.
The rest of the backfield must be re-
cruited from a large group of sopho-
mores.

Hardest Campaign
In addition to battles against No-
tro Dame and Stanford, North-
western will meet six Big Ten foes, all
of them at Evanston except Ohio
State. The campaign is probably
the hardest ever undertaken under
the Hanley regime. The schedule:
Sept. 30—Iowa at Soldier Field
(Chicago).

Oct. 14—Stanford at Soldier
Field.
Oct. 21—Indiana at Evanston.
Oct. 28—Ohio State at Columbus.
Nov. 4—Minnesota at Evanston.
Nov. 11—Illinois at Evanston.
Nov. 18—Notre Dame at Evans-
ton.
Nov. 25—Michigan at Evanston.

"Gar" Davidson, Army Coach A West Point Man

West Point, N. Y., Sept. 12.—
Lieutenant Garrison H. Davidson,
Corps of Engineers, who succeeded
Major Ralph I. Sams, Cavalry, as
head coach of the Army football
team at the close of last season, is a
West Point graduate just as were
his predecessors.

"Gar" Davidson was born in the
Fordham section of New York city,
where he attended grammar school.
While at Stuyvesant High School, he
played football for two years, being
a member of the first championship
football team that school produced.
Among his teammates were Bill
Tim, Bill Adler and "Dutch"
Hoekelman, later captain of Col-
gate, Columbia and Cornell Univer-
sities, respectively.

Football his Specialty.
Entering the Military Academy in
1923 before the freshman eligibility
rule was in effect, Davidson was un-
able to make the varsity squad, but
played intramural football as an end
on his company team. As a sopho-
more, he again participated in intra-
mural football, but in the latter part
of the season was promoted to the
A squad and played about one-half
of the game against Notre Dame's
Four Horsemen team in 1924.
Davidson's immediate opponent in
that game was "Rip" Miller, present
Navy coach. For the next two years
he was varsity end, finishing his ath-
letic career in the 21-21 Army-Navy
game in Chicago in 1926.

Davidson was the Senior Battalion
Commander in the Regiment of
Cadets, vice president of his class
and a member of the honor commit-
tee. His only sport during his en-
tire four years at the Military Acad-
emy was football.

Was Head Coach.
Graduating in June, 1927, he re-
turned to West Point that fall and
was end coach of the plebe squad
during the '27, '28 and '29 seasons.
For the next two years he was head
coach of the B squad and was in-
charge of all the scouting, concen-
trating on Yale and Notre Dame.
Last year, which was his sixth year
at coaching, he directed the plebes
through an undefeated season.

Tagging Major League Bases

By ORLO ROBERTSON
(Associated Press Sports Writer)
Connie Mack's problem of finding
a right handed pitcher to fit into the
mound staff he is building for 1934
apparently has been solved by John
Marcum, from Louisville of the
American Association.

While the New York Giants were
strengthening their lead in the Na-
tional League and the Washington
Senators were adding to their ad-
vantage in the American circuit yester-
day, Marcum, making his second
major league start, pitched his sec-
ond shutout as the Philadelphia
Athletics trimmed the Chicago White
Sox twice.

After Lefty Grove turned in his
21st victory of the season with a 5
to 3 decision over Ted Lyons in the
first game, young Marcum ran his
big-league record to 18, scoreless in-
nings with an 8 to 0 triumph. As
in his debut against the Cleveland
Indians last Friday, the recruit held
the White Sox to five singles and
struck out three, Al Simmons fan-
gling twice.

The double victory boosted the
Athletics into third place, one-half
game in front of the Indians, who
were the victims of Monte Weaver's
effective pitching at Washington,
the Senators winning, 5 to 1.
Coupled with the Detroit Tigers' 5
to 1 decision over the New York
Yankees, the Senators increased
their lead over the world champions
to nine and one-half games. They
need only eight victories in their re-
maining 16 games to clinch the pen-
nant even if the Yankees win all of
their remaining 18 contests.

Weaver gave up eight hits, but
kept them well scattered and no
member of the tribe crossed home
plate until the ninth. Meanwhile
the Senators bunched their nine
blows off Mel Harder and Willie Hud-
lin to give Weaver an early lead.
In the National League the Cubs
and Pirates, rained out, increased
their lead over Chicago to eight
games and over Pittsburgh to eight
and one-half by beating the lowly
Cincinnati Reds, 3 to 1. It was the
Giants' fifth straight victory. Ten
victories in their 19 games will as-
sure the Giants of the flag.

Again Manager Bill Terry called
on his ace of aces, Carl Hubbell, to
save the game. Holding a two-run
advantage but with Herman Bell
showing signs of weakening, Hubbell
was rushed to the rescue in the
seventh after Red Lucas had led off
with a single. In the last three in-
nings, he allowed only one hit and
pitched just 27 balls to ten batters.

It was the second time in as many
days Hubbell, who defeated the Pi-
rates Friday, had been shoved into
the breach. It also was the 41st
game in which he had taken part.
He now has pitched 255 1-2 innings,
more than 21 full games and fanned
145 batters.

The Yankees' defeat at the hands
of the Tigers was largely the result
of Fred Marberry's pitching. He
held the champions to four scattered
blows and only one man reached
second after the first inning. The
Tigers touched Charley Ruffing for
11 safe blows, pushing over three
runs in the seventh.

The Boston Braves retained their
mathematical chance of winning the
National League pennant by defeat-
ing the St. Louis Cardinals 3 to 9
behind the six-hit pitching of Ed
Brandt.

Keeping Her Crown

SPORT SLANTS

By ALAN J. GOULD
(Associated Press Sports Editor.)

Ellsworth Vines has been given a
"clean bill" as to his amateur status
for the time being but the United
States Lawn Tennis Association ap-
parently disliked having its national
champion in a receptive mood for
professional offers and intimating as
much in the official communique ab-
solving the lanky Californian from
any violation of the simon-pure
code.

The situation seems to have been
handled effectively but I wonder just
how much faster and investigation
there would have been if the story of
Vines' achievements abroad this year
was different; in other words, if he
had retained the Wimbledon crown
or played a winning role in the Da-
vis Cup matches?

If Vines and a number of other
tennis stars have not been "profes-
sional amateurs" within the past
year, I do not know by what desig-
nation they can be labelled. They
have played the game constantly, at
home and abroad, engaging in a
great deal more international compe-
tition than any of the outright pro-
fessionals, including Bill Tilden. If
a star of Vines' calibre thinks and
plays tennis so steadily, with all ex-
penses paid, what is more natural
than his own thought of how even-
tually to make a definite livelihood
out of the sport?

In short, as any tennis observer
well may ask, isn't the over-empha-
sis on amateur tennis at home and
abroad more to blame for commer-
cially-minded participants than the
players themselves.

Potential Champions
I doubt if the U. S. L. T. A. has
any idea of "selling Vines short,"
simply because he was a big disap-
pointment in the 1932 European
campaign.

Critics Give Ross Slight Edge On Tony

New York, Sept. 12 (AP).—Barney
Ross' 49th professional fight won
him the lightweight championship.
His 50th takes him into the ring at
the Polo Grounds tonight for a 15-
round defense of the crown against
the veteran he dethroned, Tony
Cannonieri of New York.

The betting odds remained just
where they have been for several
weeks—9 to 10 against, and take
your choice. The critics concede
Ross a slight edge on the score of
his youth and stamina. They point
out that Cannonieri, although only 25,
has put in eight years of the most
savage battling and is beginning to
show signs of wear and tear. Ross,
they believe, is coming up; Can-
nonieri, slipping a bit.

The bout is scheduled for about 9
p. m. (E.S.T.) There will be no
broadcast.

Such prompt practices at plowing, sowing and whatever else young America finds to occupy his time
through the summer months are forgotten these autumn days as football squads of a few thousand univer-
sities and preparatory schools train for the approaching season. The rip-tearing halfback above is Al De
Loon of Clark Silver Lancers' Episcopal university eleven. He's ploughing through opposing lines now,

All Stars Booked For a Contest At Livingston Manor

McCardle's Club Featured With
Boring's Team in Firemen's Con-
vention Attraction—Tossing Over
Series With Crystal Gardens
The past game on the schedule of
the Kingston All Stars is against
Buck Ewing's All Stars, well known
update colored nine, Thursday
afternoon at Livingston Manor, as a
feature of the Sullivan county fire-
men's convention.

Manager John McCardle of the
Kingston Club expects a hard tussle
and has rounded up three pitchers,
giving them instructions to be
ready to hurl the best games of the
summer. The trio consists of Bill
Thomas, "Specs" Ellis and "Red"
LaFramme, former Colgate College
and Roxbury star.
The supporting cast to whomver
McCardle chooses to toss will be the
same as always used by the All Stars.
Regarding the series with the
Crystal Gardens, which opened last
Sunday at the Fair Grounds, the All
Stars winning, McCardle states that
the race for the championship of
Kingston is off unless the Crystal
consent to playing the other two
contests at the same diamond.
"Mac" will not let his boys play at
the Pan Am diamond, home grounds
of the Crystals. So whether the
series will continue depends on how
Managers "Dutch" Glaser and John-
ny Ashdown of the Gardeners feel
toward accepting McCardle's deci-
sion.

GRAPHIC GOLF
USING DRIVER THROUGH
THE FAIRWAY
THERE has been little discussion
with the larger and heavier ball
that is now in official use. In fact
most golfers are more than pleased
with it. For one thing it sets up bet-
ter on the fairway and offers a larger
broadside to hit it. There is no ne-
cessity to slam into the ball to make
it rise with a rather straight club so
you often the cue with the number
ball. In fact the cue of elevation has
led Bobby Jones to resort to the use
of his driver under certain situations
through the fairway. When the ball
presents a fairly good lie and a long
shot into the wind or a far second is
desired, Jones was his driver with no
sense of undue risk. Although the av-
erage golfer might hesitate to follow
Jones' example, the new ball has at
least made brains and speed effects
easier.

German Court Clarifies the Meaning of Railroad

Probably we all think we know
what a railroad is, but it is interest-
ing to find an elaborate scientific dis-
cussion laid down with typical Ger-
man thoroughness by a German court. And
it's all in one sentence which the
United Press reports from Berlin as
a decision of a high federal court.

"A railroad is an undertaking ap-
proved to the repeated moving along of
people, or goods, over not entirely es-
sential distances, and upon a men-
tal base which by its consistency, co-
struction and smoothness is meant to
make possible the transportation of
heavier weights, or to achieve a com-
paratively great speed of motion, and
which through this particular qual-
ification in connection with the natu-
ral forces used for the generation of the
 motive power (namely, electricity, ani-
mal or human muscular activity, or
on a slight down grade, even by the
momentum of the vehicle itself or its
 cargo) is in a position (according to
 circumstances, useful to a limited ex-
tend, or destructive of human life or
 dangerous to human health) to ex-
 ercise a comparatively important func-
 tion by the operation of the enter-
 prise."

The Standard Dictionary definition
of a railroad is shorter and simpler:
"A graded road, having one or more
 tracks, usually of metal rails, support-
 ed by sleepers, and designed for the
 passage of rolling stock."—Literary
 Digest.

**THROUGH A
Woman's Eyes**

By JEAN NEWTON

IT CAN'T HELP WORKING

"IT OCCURS to me," said a happily married woman, "that the remedy for most of the difficulties of married life is the shifting of the focus from oneself to the other person. Even egotists like my husband and I can do it; and it seems to work."

Certainly, why shouldn't it work? Nobody really wants to bicker and quarrel and hate; everyone really loves peace. It is just a question of the price. Husbands and wives do not want to live a life of dissension, of misunderstanding, of pulling in opposite ways; every man and every woman in marrying envisions a life of two hearts that beat as one, two who live for each other, two against the world. When they cannot achieve this they are not only resentful, they are miserable, and deep down within them questioning, like lost children, why it had to be so.

People who marry depend first of all upon each other for their life's happiness. They do not deliberately destroy it. Why then, so much destruction in marriage of the thing that counts—why so much dissension—so much pulling in opposite directions—so much heartache—and, finally, hatred? Why?

Because each one thinks he or she is right. Because each sees only one side of the fence—his own needs and desires, his own viewpoint. What ever goes counter to that is outrage.

Now of course if each could stop for a moment and see the other side of the fence, the other's needs and desires, the other's viewpoint—and the reasons for it—why, each would have no thought and no object but to make the other happy—and both would be happy, and incidentally, there would be no barrier to their remaining lovers.

There is what this woman meant by "shifting the focus from oneself to the other person." And of course she found it works. It can't help working. It's foolproof.

Interstate Commerce Body

The Interstate Commerce commission is a government agency established in 1887. It consists of seven members, each receiving a salary of \$12,000, minus the 15 per cent economy cut. The duties of the commission are to regulate interstate traffic on all common carriers. It regulates railroad rates, provides safety measures, receives reports of accidents and performs other duties. Its powers have been increased from time to time since its formation by acts of congress. Telegraph and telephone companies, express companies, pipe and gas lines, buses and boats doing interstate business all come under its jurisdiction.

Expect more value when you buy . . . more economy in operation . . . more satisfaction

ANY automatic refrigerator offers definitely more than old types of refrigeration. The New Air-Cooled Electrolux represents a similar advance over all other automatic refrigerators.

It has no motor—no moving parts at all! A tiny gas flame circulates a simple refrigerant. Ordinary air cools it. And that's all.

Naturally Electrolux is soundless. Naturally it is trouble-free. For it has no moving parts to make noise—it has no moving parts to wear.

Many refrigerators claim low operating costs. But Electrolux operates for less than any of them. Since it has no moving parts to wear, this low figure will not be increased by worn or inefficient parts.

Only Electrolux can offer you lowest operating cost, permanent silence, freedom from repairs, and prompt gas company service . . . yet it costs no more than other leading refrigerators! Over a period of years its cost is considerably less.

Electrolux has no second line. We give the full measure of our time and skill to Electrolux itself. We have no "bargain leaders" to win customers and lose friends.

Your own gas company backs these statements, just as it backs every Electrolux. Take your gas company's word—or take ours—the New Air-Cooled Electrolux is beyond question the finest refrigerator made.

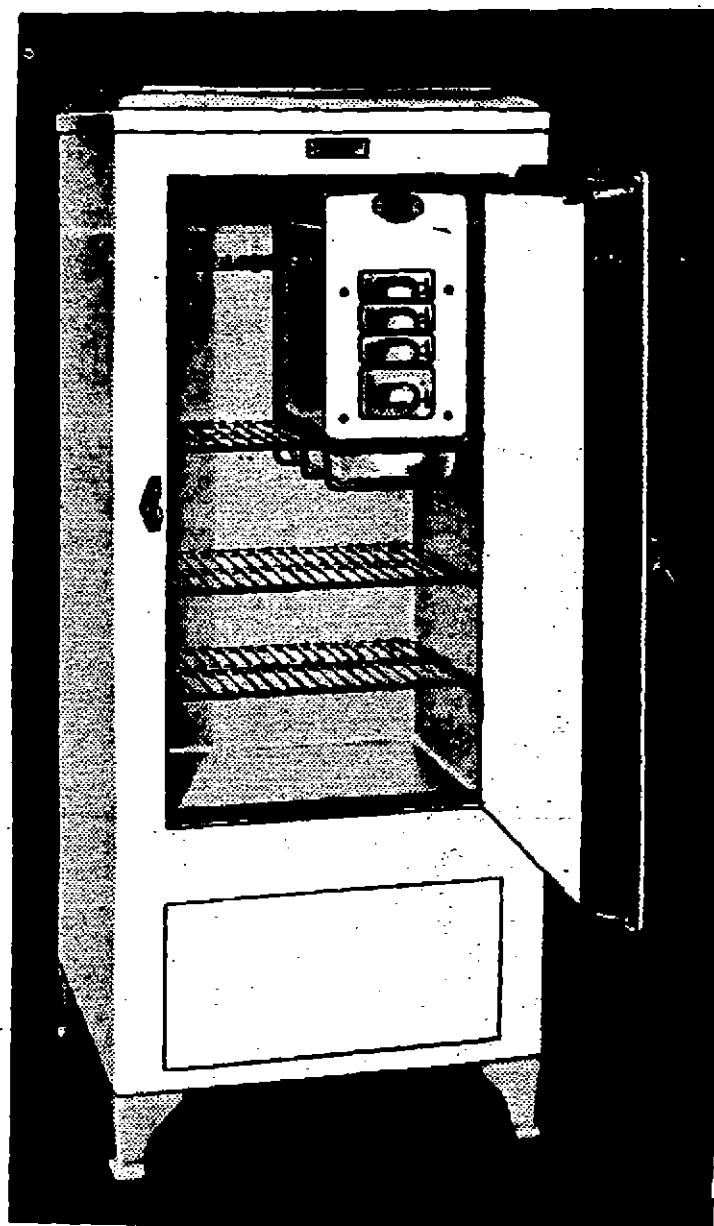

See Electrolux at our showroom. Compare it carefully with other refrigerators . . . expect more of Electrolux! Can be operated with bottled gas where there are no mains.

Kingston: "Another Language." Clever, realistic, and homely, this remarkably acted and dialogued talkie of a young bride who is brought in to the home of her husband and treated poorly, makes excellent screen drama, especially so when the main roles are handled by such capable performers as Helen Hayes and Robert Montgomery. Although the show moves along at a rather slow pace, the final rising up of the young bride against the overbearing conditions she can no longer stand, is worth waiting for. The dialogue is especially good in this show, and the work of Helen Hayes is another four star portrayal. Others in the cast are Henry Travers, Louise Clouser Hale and John Beal.
Orpheum: "The Kid from Spain." Eddie Cantor, surrounded by a multitude of girls, goes through his usual tricks, sings several songs, and ends up by winning a ball fight in this picture of romance and romance. Never was Mr. Cantor funnier, for a play more enjoyable than this talkie comedy that has everything essential to an evening's fun. Grand entertainment.
Broadway: "The Island of Lost Souls." One of the most gruesome talkies and at the same time one of the most fascinating from the standpoint of imaginative terrorism is this tale of a mad doctor on a lonely island who spends his time grafting beasts and animals together to see what the results will produce. less to say, he achieves some choice specimens before he is through, and they roam the island and appear before the camera in shuddering frequency. The masterpiece of the de-mo-nic doctor is a Panther Woman, who falls in love with one of the young men who is cast upon the island. The story is adapted from the novel of H. G. Wells, and a wonderful cast almost makes the situations seem true. Charles Laughton, Bela Lugosi, Lella Hyams, Richard Arlen, and several other lesser actors take part in the festivities.
